The Americans Are Waking Up.

THE NEW YORK EVENING NEWS SAYS, NO SECTION OF THE U. S.
EVER EXPERIENCED SUCH DEVELOPMENT AS IS NOW TAK-
ING PLACE IN NEW ONTARIO. THE AMERICAN
INVASION OF CANADA EXPLAINED.

The New York Evening News, one
of the few American papers which
speak intelligently of Canadian mat-
ters must have startled its readers,
considerably when it published the
following glowing article on the re-
sources of Canada.—
"There is no doubt whatever,"
says the News, "as to the appalling
ignorance of our people generally re-
garding the extent and resources of
the great Dominion to the north of
us."

"Let us not forget that to the
great north-west of the marvellous
country thousands upon thousands
are 'trekking,' to the Canadian farm
lands.
"Let us not forget, too, that Can-
ada's waterways are superior to ours
that the Canadian men are crowd-
ing the lakes with Canadian-made
boats, and that in New Ontario there
is now in progress a development
such as no section of this country
has ever seen.

"And so, when we speak of Can-
ada, let us remember that the tide
has set in from here to there, and
our sons and daughters are peopling
the west—for 60,000 went from Neb-
raska, Minnesota, and the Dakotas,
this year.
"And let us remember, too, that
Canada's greatest mines are her un-
discovered mines, that her greatest
tracts of arable lands are still vir-
gin, that her timber reserves are pro-
tectected, and of such vast area that
figures are appalling—in that they sur-
prise us and make us wonder at our
own ignorance.

"Do not let us forget, too, that in
our neighbour's land, crimes meet
their just punishment, and divorces
are practically unknown.
"Only a few weeks ago a cabinet
minister was criticised for spending
\$40,000 in search for murderers of
two Americans in the Canadian Yukon.
His answer was, 'This govern-
ment will spend \$40,000, and \$400,
000 if necessary in enforcing the laws
of this land. And the Americans are
entitled to the protection of our
laws, if they obey our laws.
"In the Dominion of Canada is lo-
cated three-fourths of the productive
soil of North America. It is yet only
scratched.

"Canada may not have 56,000,000,
or 70,000,000 people, but 5,500,000
within her borders are proud of
their country, of its government, and
of its prospects, and have every rea-
son of being so.
"Our trade with Canada is our
most profitable trade, and this in
spite of tariff laws dictated to us
too often by jealousies. In these
trust-ridden days it behoves us to
cast our eyes abroad for markets—
but, above all, it is our bounden duty
to study our neighbours' actual con-
ditions, so that we may not only
know that New Brunswick is not ad-
joining British Columbia, but know
too, that Canada is a lusty country,
filled with indomitable sons, loyal to
their king, and eager for a battle,
royal, in the industrial markets of
the world."

Our old friend the B. C. Review,

mining situation in this district with
its usual recklessness in regard to
facts, stating that during the last two
years we have not received much
attention either from Canadian or
American capital. In view of the fact
that there has been a regular Amer-
ican invasion of the Manitowish and
Lake of the Woods sections during
this year, the editorial of the B. C.

GOVERNMENT OWNERSHIP.

People in the United Kingdom who study the tables published in the recent Blue Books (writes Mr. J. Henshaker Henton, M. P., in the "Magazine of Commerce") know that they annually spend £1,000,000 in cable to America (including Canada) £112,000 in cable to Australia, £366,000 in cable to South Africa, £300,000 in cable to India, and another £300,000 in cable to China, Hong King, and the east. John Bull, in brief, puts his hand into his capacious pocket to the tune of £2,675,550 every day of the week, except Sundays, to cable to his customers and clients and cousins over the seas—a sum well worth classifying, earmarking, and investigating in relation to the value the service renders for the sum received. While looking at that total sum of £2,348,000 spent annually in cabling, remember that the total sum spent annually upon our mail packet service to Australia, America, India, and China is only £500,000—a sum comparatively insignificant, but in this relation significant enough. If our letters are none too cheaply carried, what shall we say to this huge cost of our cablegrams? I do not hope to persuade monopolists in Old Broad street, but I do intend to make clear to the merchant and manufacturer, sending out every year their £900,000,000 worth of goods to these distant parts, that a less costly cable-communication will make him a less anxious as well as a richer man.
 With these views, and realising, as I do, the enormous interests, alike in commerce and in policy, at stake, is it surprising that I advocate the purchase by Government of the Old Broad Street interests, the extinction of private and self-interested ownership, and the nationalisation of the wires that connect our island with its children and its dependencies?

The King and Swearing.

The King has sent his best wishes to the National Association for the Suppression of Bad Language, which has just been established in London. The society is meeting with encouragement, the Bishop of London, Cardinal Vaughan, and many others having wished it success.
 The law against obscene language is adequate. What is needed is its rigorous enforcement. The society will endeavor to secure this whenever possible.
 The Englishman is a veritable amateur at swearing, repeating himself, several times in a sentence, so that the society should not find it difficult to break him off the habit while it is in its preliminary stage. Canadians and Americans, too, give the Englishman "cards and spades" and still make him look "like thirty cents," at the finish, so that if there were a society of the suppression of bad language in this country their task would be a Herculean one indeed.

Men of Talent Live Long.

It is a very common but erroneous belief that brain work is destructive of physical strength. The fact is that men of thought and mental force have always been distinguished for their age. Colon, Stephens, Platan Anacron, and Xenophon were cotemporary. Kant, Nelson, Goethe, Fontenelle and Newton, were over ninety.

The B. C. Review mixes up its Facts in Regard to Lake of the Woods Gold Fields.

Michael Angelo and Titian were 89, and ninety-nine respectively. Harvey, the discoverer of the circulation of the blood lived to be eighty. Many men have done excellent work after they have passed eighty years. Landor wrote his "Imaginary Conversations when eighty-five; Isaac Walton, weilded a ready pen at ninety; Hannemann married at eighty and was still working at ninety-one. Michael Angelo was still painting his giant canvasses at eighty-nine and Titian, at ninety worked with the vigor of his early years.

Fontenelle was as light hearted at ninety-eight as at forty, and Newton at eighty-three worked as hard as he did in middle life. Carnaro was in far better health at ninety-five than at thirty and as lusty as a school-boy. At Hanover Dr. DuBoisy was still practicing as a physician in 1897, going his daily rounds at the age of 103. William Reynolds Salmon, M. R. C. S., of Conbridge, Glamorgan-shire, died on March the 11th 1897, at the age of 106. At the time of his death he was the oldest, known individual, of indisputable authentic age, the oldest physician, the oldest member of the Royal College of Surgeons, England, and the oldest Freemason in the World.

"The quartz deposits in the Lake of the Woods portion of Western Ontario, which are largely of a free-milling nature, have not received much attention during the last two years, either from Canadian or American capital, and though the operations of the three chief English concerns operating in the Lake of the Woods district have not been disastrous still dividends have not yet resulted, so there has been little inducement for more English capital to go into the district. Recently a purchase of mining property and plant has been made by an American syndicate which is of considerable importance to the district, and gives a basis for a hope, that new effort will be made to work some of the most promising of the properties on a large scale. Experience has shown that when the Yankees invade Canada, and pay hard cash for mining or other properties, the purchase usually shows them a profit. The new company referred to have purchased the reliction W.S.S. at Rat Portage, which were built twelve years ago, when the district first attracted attention, and are said to have cost at the time about £20,000. Those responsible for the enterprise anticipated to keep the mill continuously running on custom ores; their hopes proved to be sanguine, however, and except for very brief intervals of activity, the plant has been idle, but it is now being equipped with up-to-date machinery, and being quite well extensive water power it is intended to use this source of energy, which will reduce operating costs to a very low level.

In addition to the mill, the purchasers own the Big Master and other mines in the Manitowish district and have recently purchased, in addition, the Scramble mine, which is near Rat Portage, and contains a large ore body containing low grade values; it is to be hoped that this inflow of American capital will have the effect anticipated by the residents, of that promising mining district, which is suffering much from want of necessary capital to expose its hidden mineral wealth to the eyes of the world."

A BUSINESS COLLEGE
 First Class Institution of Learning to be established in Rat Portage.

A branch of the well-known O'Sullivan Business College, Winnipeg, will be opened in Rat Portage next week, and classes for the day and night courses are now being formed.

The full course to be taught embraces Bookkeeping, Commercial Law, Arithmetic, Penmanship, Shorthand, and Touch-Typewriting. Students may take any or all of the subjects, descriptions of which are found in the illustrated college circulars, and on completing the same will be accorded the regular college diploma.

Those who wish to secure a Short Land or Business education AT HOME should take advantage of this opportunity, and thereby save all expense connected with taking a similar course elsewhere.

E. J. O'SULLIVAN, C. E., M. A., PRINCIPAL.

Mr. O'Sullivan by reason of his experience is highly recommended by the press and leading men of the Dominion. He has been awarded first prize four times consecutively, penmanship against all Canada; also the Diploma of Honor for the best and most original methods of teaching practical bookkeeping thoroughly, being the highest possible distinction.

The O'Sullivan School is established here mainly for the purpose of demonstrating the work of the home school at Winnipeg and will be here during the coming six months only. You cannot afford to miss this splendid opportunity.

THE RAILWAY BY-LAW.

The citizens of this corporation are very much interested just now, in the by-law which was read for the first time at the meeting of the Board of Aldermen held last Monday night. There was no discussion on the bill, but this does not mean, that the city fathers will not take the memorandum of Agreement between the Railway company and the municipal corporation, clause by clause, and fully consider each one separately before finally passing and adopting. The place to discuss the bill is in the committee of the Whole, and if the mayor and aldermen gave an entire day to this business it would be time well spent. The Agreement as it now stands, though it was drawn up by the City Solicitor, is merely the Railway Company's preliminary overture, or proposition, and the entire scheme should not be condemned off-hand by the council, because one or even several of the clauses in that proposition, do not seem to be in the best interests of the town. The course of the aldermen should pursue is to eliminate anything and everything that clashes with the doctrine of municipal ownership, or ties up in any way, any privilege, franchise, or other valuable asset, belonging to the people.

Theoretically no one will deny that municipal ownership of public franchises and other utilities is the most scientific form of city government and management, yet even the most enthusiastic exponent of this doctrine must acknowledge that exigencies or conditions, may arise, which would for the time, being introduce a new phase, and relegate theory or proposition to a back seat.

For instance—Suppose the Grand Trunk Railway came to the council, and said "As our new trans-continental railway passes north of here, in the Lad Seal Country, we have decided to run a branch line into your city. We will spend probably about \$1,500,000 in this work, most of which will find its way through our payrolls into the tills of your merchants. We will also erect shops and station here, on as large a scale, as the C. P. R., but—we want in return for all this, a site for our headquarters, and have decided, that the City Park, near the Cemetery is just the spot we require. It will also be necessary for you to close up a few streets abutting the park and a few

JUST IN TIME.

A motorman in Chicago ran his car into the approach of an open bridge but stopped it with the fender actually overhanging the gulf below. He wouldn't want to repeat the experiment because the chances are that he'd never again have the same good fortune.

Once in a while someone who has travelled to the very edge of the danger line of stomach disease stops just in time to see his health. But the majority of people go across the line, and slight symptoms of indigestion grow to disease of the stomach, involving indigestion and nutrition. The first symptom of indigestion should receive prompt attention. Indigestion and other forms of stomach "trouble" are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It strengthens the whole body by enabling the perfect digestion and assimilation of food.

"I have been suffering for about eight years," writes Mrs. H. Pierce, of Mill Springs, Ky. "I have had several doctors to treat me—some for female weakness and others for stomach trouble, but received no relief. When I wrote you for advice I was hardly able to work, and you advised me what to do. I began to take your medicine and the effects have been good. I was under the doctor's care every summer before this. I took five bottles of Dr. Pierce's Golden Medical Discovery, of 'Favorite Prescription,' also two vials of 'Pilets,' for Pierce's medicines will cure all that you claim for them. Believe I would have been in my grave if I had not taken them."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for disease of the stomach. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of customs and mailing only. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

within the corporation boundaries of Keewatin and Rat Portage.

It will cost the railway people about \$30,000 to develop their water power, a large portion of this being wages, and if they construct the interurban roadbed for \$10,000 per mile, they will do it cheaply. This money will be spent here. They will want depot and shops, and when they begin to forge north, this place will be their headquarters from which they will draw their labor and supplies. While this latter work is proceeding, the street railway will be running, and there will be free and rapid intercourse between Keewatin, and Rat Portage, which must stimulate the commercial life of this city.

What do the company want?

Mr. Chadwick says his company want nothing but permission to make Rat Portage their terminus. He is not attempting to play Keewatin against Rat Portage, or vice versa, or Rossland against both or either. He states definitely that Rat Portage will be the headquarters.

What does the memorandum of Agreement say?

It says that the company want permission to construct telephone lines in Rat Portage. The mine explains nothing, but Mr. Chadwick says that the clause is inserted because "his

WAS HENRY VIII MARRIED?

refund of their money.

Three priests were in attendance, and if I mistake not, our Parish Priest, the following Sunday, put his final sanction upon it from the altar. Probably, he was joking.

You proceed, thus:—"Mrs. Rob's statement is either a malicious falsehood, or a falsehood of ignorance."—Oh! he! he!

A malicious falsehood would but shock our amiable refined Rat Portage audiences; neither could a falsehood of ignorance be palatable to this intellectual centre, where, not only the baked bean, but the poetic pancake and the inspiring pumpkin pie are much in evidence.

Perhaps you have not heard that Rat Portage on the great C. P. R. is the most favored and the most cosmopolitan town in the world, and that its citizens are the elite of the nations?

We are so happily engrossed with the beauties of our Lake of the Woods, with our gold mines, and with our peerless winters, when the mercury drops out of sight, that we do not generate sufficient bile to enable us to worry over royal marriages, although our high estate points our responsibility in that direction.

I have scathed through all the statutes and by-laws of Rat Portage, and can find nothing to prove the illegality of any of the marriages of Henry VIII.

You attribute to me "other ravings against the Catholics." O shades of Chiniquy and Margaret L. Come back to me—with the shillies; and tell me, O tell me, that it pays—everlastingly! I too would be famous.

Who is your informant, "D"? Rat Portage would not own him! I have looked over the registers of all our hotels, but in vain; have only learned that about Nov. 7th a man presumably from the wilderness visited our town, but did not register. He could not write his name. His dullness, and destiny, suggested the "Forest City" of Ontario, and also the "Black Forest" of Germany.

In the polite circles of this beautiful town, "B" stands for "Booby," and when he asserts himself, he is, in lofty commiseration, awarded a prize, ranging from A. B. C. blocks to, sensors, of precious metal.

The "A. B. C." blocks await your, respectful informant, "B". You shall have the scissors; I can guarantee that you find them very necessary. I myself was an editor once; that was,

property, namely—

PARCEL NO. 1—Lot number two situate at Norman in the Municipality of Rat Portage, in the District of Rainy River, containing eleven hundredths of an acre, more or less, as shown on plan of survey by T. J. Deacon, Ontario Land Surveyor, dated 23rd of August, 1893, of record in the Department of Crown Lands, subject to the reservations, and exceptions contained in the original patent from the Crown, namely:—The free use, passage and enjoyment of it, in, over and upon all navigable waters, which shall or may be on or under or shall or may flow through or upon any part of the said land; also right of access to the shores of all rivers, streams and lakes, for all vessels, boats and persons, together with the right to use so much of the banks thereof, not exceeding one chain in depth from the water's edge, as may be necessary for passing purposes, subject to the exceptions and qualifications mentioned in Section 11 of the Land Titles Act, being the freehold land registered in the office of Land Titles at Rat Portage, as Parcel No. 173 in the Register for the District of Rainy River.

PARCEL NO. 2—All and Singular that certain parcel or tract of land and premises situate, lying and being in the Town of Rat Portage, in the District of Rainy River, and province of Ontario, and being composed of the north half of Lot Number Fifty-eight in Block Two (2) in the Town of Rat Portage, according to a plan of said Town certified by John W. Harris, P. L. S., and duly filed in the Registry office for the District of Rainy River, said north half of said Lot having a frontage of seventy-five feet, on Matheson street, saving and excepting out of said, north half that part thereof reserved by the Canadian Pacific Railway Co., for a right-of-way for spur track, agreed to be conveyed by the Hudson Bay Company to the Ontario and Western Lumber Company Limited.

On Parcel No. 1 there is said to be erected a two story frame six roomed dwelling 16' x 20' with addition 12' x 10'.

On Parcel No. 2 there is said to be erected a two story frame dwelling 16' x 20' with addition 12' x 10'.

PARCEL NO. 3—A Certain Title The property was offered for sale in two parcels, each subject to a reserve bid.

I do not make this statement, nor
 any other that would harmonize with
 it. How could I? I pride myself upon
 being a Catholic of Catholics—in
 theory at least. I went to school
 once when I was young, and I studied
 "The History of the Kings of Eng-

I do not say that on the best author-

 had been in reality, little more than
 the fiction of betrothal.

The "A. B. C." blocks await your
 angelic informant, "B." You shall
 have the scissors: I can perceive that
 you find them very necessary. I, my-
 self was an editor once, that was
 of course, long before I dared to as-
 pire to the lecture platform.

In paying sympathy for you, I
 had planned that when I should have
 made a couple of dollars by lecture
 profits, I would subscribe for the
 "London Record." My mind is changed.

Western politeness and culture,
 did not restrain me, I fear that in
 moments of weakness, I might let
 my angry passions arise, and exclaim
 "That 'London Record' is a scur-
 rous, lying sheet—I wish I were a
 man! I wish I were a dozen men—I
 would go down there and kick that
 editor until he couldn't tell his
 steers from his paste pot!"

But the sweet recollection of other
 newspapers—our "Rat Portage
 Miner" and our "Rat Portage News,"
 with their handsome editors, mollifies
 and consoles me.

In conclusion I can assure you,
 that I am calm, quite calm.
 I shall not enter a suit for libel,
 nor take from your pockets any ten
 thousand, but as I have been entreat-
 ed to give that lecture again, and
 again, I shall sell several thousand
 tickets extra, by assuring our ap-
 preciative citizens that, on lecture
 date, you will be here in person to
 apologize.

We shall expect you without fail,
 if the walking is good.

Sick Blood

Feed pale girls on Scott's Emulsion.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.

Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.

Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

Curse OF DRINK

COLONIAL REMEDY.

It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.

Indorsed by Members of W. C. T. U.
Mrs. Moore, Superintendent of the Women's Christian Temperance Union, Vancouver, B. C., writes: "I have tested Colonial Remedy on very drunkards, and the cure has been sure. In many cases the remedy was given secretly. I should recommend and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."
Sold by drug stores everywhere and by mail.
Price \$1. Trial package free by writing or sending on Mrs. M. A. Cowan (for years member of the Women's Christian Temperance Union), 209, St. Catherine St., Montreal.

Sold in Rat Portage, by Joseph Johnson.
